# MEGA ACTIV

## WIZARDS, ELVES & TROLLS

[www.primarystars.co.uk](http://www.primarystars.co.uk)

Players - Atleast 2 players!  
Equipment - None!  
Space - Anywhere, any size!

1. Establish a playing area with 2 clear ends and split the players evenly into 2 teams. Each team secretly decides whether they are going to be Wizards, Elves or Trolls. They then line up facing each other, 2 steps apart, in the centre of the area.
2. Both teams count up to 3, and on 3, each team takes a position to show the character they chose:
  - Wizards = one arm forward (casting a spell).
  - Elves = push both their ears forward with their hands.
  - Trolls = stand in a star position with arms and legs wide.
3. Trolls beats Wizards; Elves beats Trolls; Wizards beats Elves.
4. The losing team must run back to the end behind them. The winning team must tag players from the other team as they retreat to get 1 point.
5. Each time a player from the winning team tags a player from the losing team, they get 1 point for their team. Repeat the game until 1 team reaches 5 points!

### GAME BOOSTS

Increase or decrease: distance between the teams,  
distance between the 2 ends, points needed!
